

BRIGHTSPEED LOCAL OPERATING COMPANIES

The FCC released the Business Data Services (BDS) Report and Order on April 28, 2017, the BDS Order was effective on August 1, 2017. On May 15, 2017, the Wireline Competition Bureau (WCB) issued a Public Notice announcing the public release of lists of counties where lower speed DS1 and DS3 end user channel terminations and certain other lower speed TDM-based business data services provided by price cap incumbent local exchange carriers were deemed competitive, non-competitive, or grandfathered pursuant to the BDS Order.

Following are the Brightspeed Serving Wire Center (SWC) assignments for competitive and non-competitive based on the county designations as provided by the WCB. A SWC with Phase II Pricing Flexibility for the End User Channel Termination will be listed as competitive. Grandfathered areas will also be listed here as competitive.
